

SUMMER READING REQUIREMENTS

Plainfield School District considers summer reading an important part of the curriculum. The purpose of the summer reading program is three-fold:

- To develop life-long reading habits;
- Maintain reading proficiency; and
- To encourage critical thinking.

Research shows children and adolescents, who do not make reading a priority during the summer months, experience a big drop in reading skills. Through summer reading requirements we can provide students with the tools necessary to ensure year-long learning success and cultivate a love of reading.

All students are required to complete the summer reading and the designated grade level assignments. The lists are formulated for the rising grade levels. For example, a child currently in fourth (4th) grade should select options from the fifth (5th) grade list. The summer reading list was selected to address a range of interests. A careful review of quality literature that aligns with the Common Core State Standards and a balance of fiction with nonfiction selections were important considerations in determining books for our list.

Choice is widely acknowledged as a method for enhancing motivation. Required reading has been incorporated along with self-selected choices. Researchers Worthy and McKool (1996) found that allowing students to make choices about their reading material increased the likelihood that they would engage more in reading. Other researchers, Guthrie and Wigfield (2000) suggest that providing genuine student choices increases effort and commitment to reading.

This summer, make reading a family activity. Set aside time each day when the television is turned off and everyone reads! Go to a park to read under a shady tree or visit the Plainfield Public Library to check out new books and magazines for your child(ren). Make a trip to the renovated Plainfield Public Children's Library. The "Reading Rainforest" features a rainforest mural, new computers, a media center, puppet theater and a special area for tweens. Check out their website for summer events!

Teachers look forward to hearing all about the good books their students have read this summer! Students should bring all completed assignments to class the first week of school.
